

## Green Screen Printing Options

“Ready? 1, 2, 3!” And just like that a great memory is preserved in a phenomenal photo print!

With onsite printing from Schenk Photography you can capture the spirit of your event and send it home with the guests. Our photos go on to live in places where they are seen regularly and as an extension, so is your company name and logo. Be it on a book case, an office desk, or on the refrigerator at home, a print from Schenk Photography has staying power and adds lasting value for your event.

The glory of a green screen photo station is that for a brief part of the event, we can transport your guests anywhere in the world or cement their joy of being in Nashville. Green screen prints can be customized with your event logo and specific text that will remind them of the memories made in Nashville or help them look forward to next year.

Our open air systems provide each guest in the image with a copy of the print in under a minute. Our footprint of 12ft wide by 10ft deep by 9ft high can accommodate groups from one person to 30 or more. With an experienced and engaging crew we offer a great add-on to any event. All this runs off one 15 amp dedicated outlet.

Popular printed products include 5X7” prints in mattes, 4X6” prints in mattes or clear poly bags, CD covers in jewel cases, and 2”x6” photo strips.
